Just in case you need this for the call you are on now. Reno is Water Director in the Natural Resources Office. My take is they work on water quality issues. It is a totally separate from OST Water and Sewer which is the tribal utility (water and wastewater). Does that make sense?

Subject: OST Question

Good morning –

Have you heard that Reno Red Cloud is the Water Director now at OST (I'm not sure of his exact title)? He sent a letter Friday last week requesting consultation on the Dewey Burdock UIC permits.

Curious what you know and what his role is.

Thanks!
